* The total weight may differ from the stated value depending on the materials and accessories used.

Fresh ideas for comfort and stability

Stable, durable, comfortable and extremely versatile – the Carino is a **bed with many possible applications**. Whether in rehabilitation or behavioural treatment facilities, dormitory environments or first apartments for migrants, the Carino is particularly appreciated for its quality and **good value for money**, as well as individual design possibilities.

With its robust metal mattress base, the bed easily withstands numerous cycles of use. Mattress base **widths of 90 and 100 cm** are available and a bed extension can be supplied for taller users. The **manually adjustable backrest** ensures a comfortable position when reading or watching TV. The optional reading lamp provides pleasant lighting – fixing sleeves are already in place and can also be

used for fixing a patient lifting pole. Another practical accessory is the space saving **side tray**, providing convenient space for a book or mobile phone.

The Carino has a sleek and elegant design and can be adapted to meet individual requirements with a wide range of headboard and footboard options available in in **10 wood décor finishes**. The fabric **Softcovers** for the headboards, footboards and sides are an especially homelike design feature of the bed. Fabrics in attractive colours and patterns can be used to transform the Carino into the centrepiece of the room, if desired. With an optional additional fixed board along the side of the bed, the Carino can also function as a comfortable sofa during the day.
